

Manure/Compost Spreader for Sale

Country Manufacturing, Inc. model 600A “Estate Mighty”
manure/compost spreader

**Clackamas Soil and Water Conservation District in Oregon City is accepting bids
on this spreader until 3:00 pm on Wednesday, January 16, 2019.**

- Capacity: 25 bushels (a little over 1 cubic yard) heaped; approx. 3/4 cubic yard struck.
- Pull behind a 10 HP lawn tractor or ATV using a drawbar.
- Designed for use with horse, alpaca, llama, or sheep manure. Works best with dry, lightweight material.
- Designed to empty the material over a distance of 100-150 yards.
- Dimensions of the bed: 6 feet long x 2.5 feet wide x 1.5 feet high.
- Width: 46 inches, including tires.
- Maneuverable between narrow rows, and where there's limited turn-around space.
- The spreader functions adequately. There are some repair needs that have been identified that could improve performance.

Submit bids via email to: erains@conservationdistrict.org by 3 pm, January 16.
